1997 yılında, büyük bir heyecanla işe başladık. Heyecanımız, ilkelerimiz, sorumluluk anlayışımız ve kaliteye verdiğimiz önemin yanında çalışmamıza verdiğimiz değer yıllardır hiç değişmedi.

Değişen sadece teknolojimiz ve mekânımız oldu. Allegro en kaliteli malzemeyi yüksek üretim teknolojisi makinalarıyla özenle işleyerek her yıl günümüz ekonomik şartlarına uygun yatak, yemek ve ünite tasarımlarını sektöre yön veren mühendis ve mimarlarıyla üretmektedir.

In 1997, we started work with great excitement. Our excitement, principles, sense of responsibility and the importance we attach to quality, as well as the value we place on our employees, have not changed over the years. The only thing that has changed is our technology and space.

By carefully processing the highest quality materials with high production technology machines, Allegro produces bed, dining and unit designs suitable for today's economic conditions every year, with engineers and architects leading the sector.
